

Steve,

We are so proud of you! You are a smart leader always pushing to create value both for your employees, investors and the larger community. We were lucky enough to add you to our family when you and mom fell in love and as you always do you added a ton of love to the family. We are grateful for you as a true grandfather, deeply engaged in both our lives and those of our children...two of the three kids even play tennis, even if none of us can match your prowess.

We love you and we are so happy for you on this much deserved honor.

Love,
